

Project Demo Planning

Date	03 October 2026
Team ID	6ab7f3e4b8f817b7f724e1d
Project Name	FitBuddy
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Over	Introduce FitBuddy, project objectives, and the tech stack (FastAPI, SQLite, Google Gemini)	0.75 min	Shiyaam
2	Architecture & Codebase	Briefly walkthrough project structure	2 min	Shiyaam
3	Live Feature Demo (User)	Demonstrate form input, 7-day Gemini Pro workout generation, and Gemini Flash nutrition tips.	2.25 mins	Shiyaam
4	Feedback & Admin View	Show feedback-based workout iteration and the /users admin dashboard for stored records.	1 min	Shiyaam
5	Testing & Code Quality	Showcase automated pytest execution with mocked Gemini responses to prove reliability.	1 min	Shiyaam

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Highlight the need for dynamic, personalized AI-driven fitness plans over generic static routines.
2	Solution Overview	Explain how FastAPI handles asynchronous routing while Google Gemini Pro and Flash handle AI generation.
3	Live Feature Demonstration	Input sample user metrics (age, weight, goal, intensity) into the web interface and review generated outputs.
4	Q&A Session	Summarize key engineering takeaways, data persistence via SQLAlchemy, and testing practices.
